Our Little Story

Welcome to the Clasico Coffee and Warung. In 2017 Bapak Ketut Windia and Ibu Wayan Suadi started selling young coconuts in this warung. In that time, around the warung, there were many homestays starting to operate. This was giving Ibu Wayan the idea to start providing a breakfast menu. Over time, the warung getting busier and busier, so sometimes they had to borrow chairs and tables from the neighbors. So Ibu Wayan came up with the idea, to expand the warung and to involve all the family members. Her husband started to extend the building. Gede Saso, their first child, was starting to learn about how to become a barista and bartender. During this time, Ibu Wayan also expanded her knowledge about international food, but still with her Balinese style. Now this warung is run by all family members. That's what makes this place so special, it feels like home. We want to continue to give you the best experience on the island, so advice is very welcome for our improvement. Thank you for supporting our family, from the bottom of our hearts.

Matur Suksma, Terimakasih!
